## Special Notices.

To Inventors, Patentees, Publishers, Teachers,  
Manufacturers of Improved Valves, Instruments,  
Wholesale Dealers, &c. &c.—THE NEW-YORK WEEKLY  
TRIBUNE, now enlarged to the size of the Daily, and having  
THE TRIBUNE readers throughout all the States of the Union—a set  
of semi-weekly, rapidly increasing—devotes a limited portion of its  
space to advertisements calculated to be useful and interesting to its  
readers. We believe no other advertising medium of equal capacity  
in value does or ever did exist in any other country. Its  
columns, for type and first white paper (the same as those of  
the Daily and Semi-Weekly editions), with the large amount of its  
advertising and the limited space devoted to advertising, combine  
to give it unrivaled advantages for announcements of universal  
interest.

TRIBUNE—Thirty cents per line, or three cents per word, for each  
insertion, payable always in advance. No advertisement inserted  
for less than \$1. No deduction on account of length; nor short  
or preference.

ADVERTISEMENTS in the Weekly will be inserted also in the Semi-  
Weekly Tribune—having now a rapidly increasing circulation of 6,000  
for five cents per line additional, or in both Semi-Weekly and  
Daily for twelve cents per line additional. That is to say, for each  
advertisement of thirty-three words or more,

THIRTY CENTS—One DOLLAR AND FIVE CENTS  
Every two weeks in the Semi-Weekly, 143 Cents.  
Every two weeks in the Weekly, Semi-Weekly & Daily, 42 Cents.  
Every week in the Weekly, Semi-Weekly & Daily, 20 Cents.

Advertisement of less than thirty-three words in Weekly  
Semi-Weekly and Semi-Weekly, #11; Weekly, Semi-Weekly and  
Daily, 14 cents payable always in advance.

party, and they will nominate no men for office  
who will not assume a like pledge in relation to the dis-  
charge of their official duties, and to the discharge of  
their own personal honor, entire freedom to act in accordance  
with their own political principles and preferences in all matters not  
connected with the Municipal Government.

The committee of the Ward, arraigned themselves to no ex-  
ception, of their action, inasmuch as no man in the free exercise  
of his right to self-government, who have confidence in their in-  
tegrity of purpose, and their competency to discharge their assigned  
duties acceptably and profitably to the public.

THE GREAT REDUCTION in the Price of Gas!—THE  
GAS-LIGHT COMPANY and the MANHATTAN GAS  
COMPANY, both, furnish the present half price of gas  
in September. The former will be half price in October.  
The latter will be half price in November. The price  
will be larger for the interest of the Gas Companies to have  
gas ready for the winter. Gas Regulators will be  
25 cents. Gas Burners 10 years, 10 cents; Pipe Balloons  
and Gas-cooks, 10 cents extra.

We should judge from what we see, that  
the fall of gas, will be a full day’s reduction upon  
the examination of this School, that it is a full day’s reduction upon  
that of the regular system of instruction is good.
